PT1000 Freezer Probe (-80 to +100 °C)

PB-7003-1M5/3M/5M

Issue 9: 16th June 2017 (E&OE)

Sensor Specification

Phy

| Physical Specification | |
|---|---|
| IP Rating Weight | IP66 (splash-proof) 65g (1.5m cable version) |
| Response Time Water Moving Air | Typically 20 Seconds (to 90% FSD) Typically better than 3 Minutes (to 90% FSD) |
| Probe Material Temperature rating | Stainless steel (316) -80℃ to +100℃ (-112℃ to +212℃) |
| Cable Material Temperature rating | Silicone cable outer sheath with SPT core insulation -80 °C to +100 °C (-112 °F to +212 °F) Do not flex the probe cable below -60 °C (-76 °F) |
| Connector Material Temperature rating | Nickel Plated Brass/Zinc Alloy -25℃ to 85℃ (-13℉ to 185℉) |

Notes

This probe can be supplied with either a 1.5m, 3M or 5M cable.

If used in salt water rinse with fresh water before storage. For prolonged exposure, smear the threads of the connector with petroleum jelly to minimise risk of corrosion.

For specialist use, for example applications bringing the product into direct contact with food, we can supply material data sheets so you can assess the suitability of this product for your application.

Calibration

A certificate of calibration, traceable to a national standard, can be supplied for an additional charge either at the point of purchase, or if the probe is returned for a service calibration.

Approvals

Gemini Data Loggers (UK) Ltd. operates a Business Management System which conforms to ISO 9001 and ISO 14001.
